

# **Moov V Series**

# **Hardware Manual**

# Important safety information

## PLEASE READ CAREFULLY BEFORE INSTALLING PRODUCT IN VEHICLE

	This is the safety alert symbol. It is used to alert you to potential personal injury hazards. Obey all safety messages that follow this symbol to avoid possible injury or death.
	<b>WARNING</b> indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.
	<b>CAUTION</b> indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injury.
<b>CAUTION</b>	<b>CAUTION</b> used without the safety alert symbol indicates a potentially hazardous situation which, if not avoided, may result in property damage.

### **WARNING**

Removing original equipment, adding accessories or modifying your vehicle could affect the vehicle's safety or make it illegal to operate in some jurisdictions.

Follow all product instructions and all instructions in your vehicle owner's manual regarding accessories or modifications.

Consult your country's and/or state's laws regarding operation of a vehicle with any accessories or modifications.

It is your sole responsibility to place, secure and use your Mio in a manner that will not cause accidents, personal injury or property damage. Always observe safe driving practices.

Do not mount your Mio in a way that may interfere with the safe operation of the vehicle, the deployment of air bags or other safety equipment.

Do not operate your Mio while driving.

Before you use your Mio for the first time, familiarize yourself with your device and its operation.

On main roads, the distance to an exit calculated by your Mio may be further than the distance shown on road signs. Road signs show the distance to the start of an exit while your Mio shows the distance to the next intersection, i.e., the end of the exit ramp or road. To prepare to exit a road, always follow distance information on road signs.

The use of information regarding safety or speed camera locations may be subject to local laws in the country of use. You are responsible for checking that you can legally use the information in your country or in the country where the information will be used.

Products with FM Transmitter feature may be operated in the following countries:

AT	BE	BG	CH	CZ	DE	DK	EE
ES	FI	GB	HU	IE	IS	IT	LI
LT	LU	LV	MT	NL	NO	PL	PT
RO	SE	SI	SK				

The FM transmitter function is not allowed to use in Cyprus, France and Greece. Please turn off the FM Transmitter in those areas.

The TV and video player features **MUST NOT** be used when driving. Using the features may cause an accident. Please make sure you comply with this warning. Mio accepts **NO** liability whatsoever in this regard.

### **CAUTION**

Do not handle your Mio while it is hot. Let the product cool, out of direct sunlight.

At full power, prolonged listening to your Mio via headphones or earphones can damage the ear of the user.

### **CAUTION**

Do not expose your Mio to direct sunlight in an unattended vehicle for prolonged periods. Overheating may damage the unit.

**To discourage theft, do not leave your Mio, mounting bracket or any cables in plain view in an unattended vehicle.**

### **Warning Notice to Drivers in the United States**

State law may prohibit drivers in states such as Arizona, California and Minnesota from mounting objects on their windshields while driving. Please make sure you research and follow your most current State laws. An alternative mounting option may be provided in the box with your product; or see our website for additional mounting alternatives. Mio does not take any responsibility for any fines, penalties, or damages that may be incurred as a result of disregarding this notice.

# Home charger-specific safety information

## **WARNING**

To charge your Mio from the mains power, use the home charger supplied by Mio as an accessory (may be sold separately). Using other home chargers with your Mio could result in serious injury or property damage.

Never use the charger if the plug or cord is damaged.

Do not expose the charger to moisture or water. Do not use the charger in a high moisture environment. Exposure to water may cause electrical sparks or fires.

Never touch the charger when your hands or feet are wet.

Allow adequate ventilation around the charger when using it to operate your Mio or charge the internal battery. Do not cover the charger with paper or other objects that will reduce ventilation. Do not use the charger while it is inside a carrying case or other container.

Ensure that the charger is connected to a power source with the correct fitting and voltage requirements. The voltage requirements can be found on the home charger casing and/or packaging.

Do not attempt to service the charger as this could result in personal injury. Replace the charger if it is damaged or exposed to excess moisture.

## About charging

- Use only the charger supplied with your Mio. Use of another type of charger will result in malfunction and/or danger.
- This product is intended to be supplied by a LISTED Power Unit marked with "LPS", "Limited Power Source" and output rated + 5 V dc / 2.0 A".
- Use a specified battery in the equipment.

## About the charger

- Do not use the charger in a high moisture environment. Never touch the charger when your hands or feet are wet.
- Allow adequate ventilation around the charger when using it to operate your Mio or charge the battery. Do not cover the charger with paper or other objects that will reduce cooling. Do not use the charger while it is inside a carrying case.
- Connect the charger to a proper power source. The voltage requirements are found on the product case and/or packaging.
- Do not use the charger if the cord becomes damaged.
- Do not attempt to service the unit. There are no serviceable parts inside. Replace the unit if it is damaged or exposed to excess moisture.

# Internal battery-specific safety information

## **WARNING**

Your Mio contains a non-replaceable internal lithium-ion battery. The battery may burst or explode if mishandled, releasing hazardous chemicals. To reduce the risk of fire or burns, do not disassemble, crush or puncture the battery.

Recycle or dispose of the battery safely and properly according to local laws and regulations. Do not dispose of the battery in fire or water.

## **CAUTION**

Only use the correct home charger (sold separately) or in-car charger supplied by Mio to charge your Mio internal battery.

Only use your Mio internal battery with your Mio unit.

The Mio battery will stop charging when the ambient temperature is less than 0°C (32°F) or more than 45°C (113°F).

**Failure to adhere to these warnings and cautions may lead to death, serious injury or property damage. Mio disclaims all liability for installation or use of your Mio that causes or contributes to death, injury or property damage or that violates any law.**

## About the battery

- Use a specified battery in the equipment.
- **CAUTION:** The battery can burst or explode, releasing hazardous chemicals. To reduce the risk of fire or burns, do not disassemble, crush, puncture, or dispose of in fire or water.
- Important instructions (for service personnel only)
  - **Caution:** Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
  - Replace only with the same or equivalent type recommended by the manufacturer.
  - The battery must be recycled or disposed of properly.
  - Use the battery only in the specified equipment.

# Welcome

---

Thank you for purchasing this Mio. Please read this manual carefully before using your Mio for the first time. Keep this manual in a safe place and use as your first point of reference.

## Important information for using the manual

It is important to understand the terms and typographical conventions used in this manual.

### Formatting

The following formatting in the text identifies special information:

Convention	Type of Information
<b>Bold</b>	Components or items displayed on screen, including buttons, headings, field names and options.
<i>Italics</i>	Indicates the name of a screen.

### Icons

The following icons are used throughout this manual:

Icon	Description
	Note
	Tip
	Warning

### Terms

The following terms are used throughout this manual to describe user actions.

Term	Description
Press	Press and release a button quickly.
Press and hold	Press and hold a button for 2-3 seconds.
Tap	Press and release an item displayed on the touch screen.
Tap and hold	Tap and hold an item displayed on the touch screen for 2-3 seconds.
Select	Tap an item in a list or tap a command from a menu.

# Mounting your Mio in a vehicle

## CAUTION:

- Never mount your Mio where the driver's field of vision is blocked.
- If the windscreen is tinted with a reflective coating, it may be athermic and impact the GPS reception. In this instance, please mount your Mio where there is a "clear area" - usually just beneath the rear-view mirror.
- To protect your Mio against sudden surges in current, connect the in-car charger only after the car engine has been started.

## Mounting on the windshield

### V500 Series

## V700 Series

# Mounting on the dashboard

## V700 Series

 If you transfer the suction cup between vehicles, the adhesion could be reduced. To restore adhesion, please clean with water.

If you find it difficult to mount the suction cup to the dashboard, you can use the optional mounting plate to help with the mounting:

## Installing the external antenna

An external antenna may be supplied with your Mio for better signal reception.

Connect the external antenna to the connector for external antenna on your Mio, then attach the antenna to the windshield (as shown in the diagram).

### V500 Series

### V700 Series

If you are in an area with very poor signal reception, try placing the antenna outside the car.

## Enabling Traffic (TMC) Reception

**Traffic information is not available on all models and is only available in selected countries.**

Depending on the model of your Mio you can receive live traffic information\*.

For information on using traffic information on your Mio, see the *Software User Manual*.

\* Subscription may be required. See [www.mio.com](http://www.mio.com) for more details.

# Installing the optional digital TV card

---

1. Open the TV card compartment cover as shown below.

2. Insert the digital TV card into the socket (1), and then press down to lock the card into place (2).

If you need to remove the digital TV card, press the locking clips (1) to release the card and then remove it (2).

3. Replace the compartment cover.

# Getting to know your Mio

## V500 Series

1	Power switch	7	Connector for in-car charger, USB cable, home charger (sold separately) and TMC accessory kit (may be sold separately)
2	Antenna	8	Slot for microSD™ memory card
3	Slot for digital TV card (may be sold separately)	9	Microphone
4	Cradle slot	10	Remote sensor
5	Speaker	11	Touch screen
6	Connector for external antenna	12	Main Menu button

## V700 Series

❶	Power switch	❹	Microphone
❷	Antenna	❽	Battery indicator
❸	Slot for digital TV card (may be sold separately)	❾	Main Menu button
❹	Speaker	❿	Connector for in-car charger and home charger (sold separately)
❺	Cradle slot	❻	Connector for headphones and TMC accessory kit (may be sold separately)
❻	Connector for external antenna	❻	Slot for microSD™ memory card (underneath cover)
❷	Touch screen	❽	Connector for USB cable (underneath cover)
❸	Remote sensor		

# How do I turn on my Mio?

---

## Using the power switch

To turn on your Mio, slide the power switch to the **ON** position.

- To turn off your Mio, slide the power switch to the **OFF** position, then tap **Sleep**. Your Mio will enter a suspended state. When you next turn it on, your Mio will return to the last screen that you used.

To reset your Mio, slide the power switch to the **RESET** position. When your Mio has turned off, slide the power switch to the **ON** position

To lock the screen, slide the power switch to the **OFF** position, then tap **Lock**.

- To unlock the screen, slide the power switch to the **ON** position, then tap **Unlock**.

# How do I charge the battery?

Your Mio has an internal battery that when fully charged, should provide power for up to 2 hours. The battery can take up to 4 hours to fully charge.

 The battery may not be fully charged when you use your Mio for the first time.

**CAUTION:** For optimal performance of the battery, note the following:

- Do not charge the battery when the temperature is high (e.g. in direct sunlight).
- There is no need to fully discharge the battery before charging.
- When leaving your Mio for long periods, slide the power switch to the RESET position to save internal battery power.
- Failure to follow the battery usage instructions could cause damage to your Mio, battery and even bodily injury or property damage and will void the warranty.

The battery indicator light on your Mio indicates the level of internal battery charge:

- **Green** - battery full
- **Orange** - battery charging

## How do I charge the battery in a vehicle?

To charge your Mio in a vehicle:

V500 Series: plug the in-car charger into  on the bottom of your Mio and the other end into the vehicle power socket.

V700 Series: plug the in-car charger into  on the left side of your Mio and the other end into the vehicle power socket.

## How do I charge the battery via my computer? (V500 Series only)

 For optimal charging results, ensure that your Mio is turned off while connected to your computer.

1. Turn on your computer.
2. Plug the large end of the USB cable directly into a USB port on your computer (not a USB hub) and plug the small end into  on the bottom of your Mio.

**CAUTION:** When your Mio is turned on and connected to a computer, it is recognized as an external mass-storage device. Do NOT delete any files that are pre-installed on your Mio. Deleting the files can cause your Mio to crash.

## How do I charge the battery at home or work?

You can use an optional home charger to charge the battery.

To charge your Mio using a mains power socket:

V500 Series: plug the home charger cable into  on the bottom of your Mio and the mains power charger into the power socket.

V700 Series: plug the home charger cable into  on the left side of your Mio and the mains power charger into the power socket.

 The home charger is not included with all models and may be purchased separately (see [www.mio.com](http://www.mio.com) for details).

# How do I insert a memory card?

**CAUTION:** Do not apply pressure to the centre of the memory card.

V500 Series

V700 Series

Hold the microSD™ card by the edges and gently insert it into the slot as shown in the above diagrams of your Mio.

- To remove a card, gently push the top edge of the card inwards to release it, then pull it out of the slot.

 Mio Technology does not guarantee the product's compatibility with the storage cards from all manufacturers.

# How do I use the remote control?

## Installing the battery for the remote control

1. Remove the plastic film from the remote control.
2. Insert a small rod, such as a straightened paperclip, into the eject hole and push firmly (1) and pull out the battery holder (2).

3. Place the battery in the battery holder. Be sure to have the + end of the battery face up.
4. Slide the battery holder back into place and make sure it clicks into position.

### CAUTION:

- Do not heat, open, puncture, mutilate, or dispose of batteries in fire.
- Use only the correct type of battery.
- When not using the battery for a long period (more than one month), remove to prevent damage from battery corrosion.
- In case the battery leaks, clean the liquid and install a new battery.
- Check the regulations of your local government for proper battery disposal.

## Remote control buttons

Name	Description
① GPS button	Returns to the <i>Map</i> screen of the navigation program. (The TV feature will be turned off if it is on.)
② TV button	Turns on the TV feature.
③ Numeric keypad	Enters a channel number.
④ MODE	Switches the display to full screen or 4:3 mode.

	<b>Name</b>	<b>Description</b>
<b>⑤</b>	◀/▶	Switches to the previous or next channel.
<b>⑥</b>	RETURN	Returns to the previous channel.
<b>⑦</b>	Mute button	Mutes or unmutes the sound.
<b>⑧</b>	ENTER	Press to confirm channel number choice.
<b>⑨</b>	▲/▼	Adjusts the volume.
<b>⑩</b>	Main Menu button	Returns to the Main Manu.

# Other features

---

## How do I receive current traffic information?

**Traffic information is not available on all models and is only available in selected countries.**

You can receive current traffic information on your Mio using the Traffic Message Channel (TMC) service. The TMC service may require a subscription in some countries. See [www.mio.com](http://www.mio.com) for details. Depending on your Mio model you may require a TMC accessory kit (may be sold separately).

- For more information about Traffic, refer to the *Software User Manual*.

## How do I play music or video?

**Media playback is not available on all models and is only available in selected countries.**

Using Media you can play music or video files that you have downloaded to your Mio or from your microSD™ card.

**WARNING:** The TV and video player features MUST NOT be used when driving. Using the features may cause an accident. Please make sure you comply with this warning. Mio accepts NO liability whatsoever in this regard.

- For more information about playing music and video, refer to the *Software User Manual*.

## How do I receive audio through my vehicle speakers?

**FM transmitting and MP3 are not available on all models and are only available in selected countries.**

Your Mio can be set to transmit sound at a particular FM frequency which you can then receive through your vehicle radio. This means that you can hear map voice guidance, mp3 files and video files clearly and loudly through your vehicle speakers.

**WARNING:** Products with FM Transmitter feature may be operated in the following countries:

AT	BE	BG	CH	CZ	DE	DK	EE
ES	FI	GB	HU	IE	IS	IT	LI
LT	LU	LV	MT	NL	NO	PL	PT
RO	SE	SI	SK				

The FM transmitter function is not allowed to use in Cyprus, France and Greece. Please turn off the FM Transmitter in those areas.

- For more information about FM transmitting, refer to the *Software User Manual*.

# Reference

## What is GPS?

The Global Positioning System (GPS) is available at any time, free of charge, and is accurate to within 5m (15ft). GPS navigation is made possible by a network of satellites that orbit the Earth at around 20,200km (12,552mi). Each satellite transmits a range of signals which are utilized by GPS receivers, such as your Mio, to determine an exact location. Although a GPS receiver can detect signals from up to 12 satellites at any time, only four signals are required to provide a position or "GPS fix" (latitude and longitude), for vehicle navigation systems.

### How does my Mio receive GPS signals?

Your Mio receives GPS signals via the internal GPS antenna. To guarantee the optimum GPS signal strength, ensure your Mio is outdoors, or in a vehicle outdoors, and has an unobstructed view of the sky. GPS reception is not usually affected by weather, however, very heavy rain or snow may have a negative effect on your reception.

## Caring for your Mio

Taking good care of your Mio will ensure trouble-free operation and reduce the risk of damage to your Mio:

- Keep your Mio away from excessive moisture and extreme temperatures.
- Avoid exposing your Mio to direct sunlight or strong ultraviolet light for extended periods of time.
- Do not place anything on top of your Mio or drop objects on your Mio.
- Do not drop your Mio or subject it to severe shock.
- Do not subject your Mio to sudden and severe temperature changes. This could cause moisture condensation inside the unit, which could damage your Mio. In the event of moisture condensation, allow your Mio to dry out completely before use.
- The screen surface can easily be scratched. Avoid touching it with sharp objects. Non-adhesive generic screen protectors designed specifically for use on portable devices with LCD panels may be used to help protect the screen from minor scratches.
- Never clean your Mio when it is turned on. Use a soft, lint-free cloth to wipe the screen and the exterior of your Mio.
- Do not use paper towels to clean the screen.
- Never attempt to disassemble, repair or make any modifications to your Mio. Disassembly, modification or any attempt at repair could cause damage to your Mio and even bodily injury or property damage and will void any warranty.
- Do not store or carry flammable liquids, gases or explosive materials in the same compartment as your Mio, its parts or accessories.

## Troubleshooting

If you encounter a problem you cannot solve, contact an authorized service centre for assistance.

Problems	Solutions
Power does not turn on when using battery power.	The remaining battery power may be too low to operate your Mio. Charge the battery using the in-car charger, home charger (sold separately) or USB cable, then try again.
Screen responds slowly.	The remaining battery power may be too low to operate your Mio. If the problem still persists, reset your Mio.
Screen freezes.	Reset your Mio.
Screen is hard to read.	Increase the screen brightness.
Cannot establish a connection with a computer.	<p>Ensure that your Mio and your computer are both turned on before trying to establish a connection.</p> <p>Make sure that the cable is securely plugged into the USB port on your computer and on your Mio. Connect the USB cable directly to your computer, not a USB hub.</p> <p>Reset your Mio before connecting the USB cable. Always disconnect your Mio before you restart your computer.</p>

## Online support

For 24/7 help and support with Mio products, visit our Technical Support website at: [www.mio.com](http://www.mio.com)

## Register your Mio with MioClub

If you have a faulty product or you would like to speak to a member of our Technical Support team, register your Mio on MioClub to obtain the Technical Support phone numbers for your region.

## Disclaimer

Mio operates a policy of ongoing development. Mio reserves the right to make changes and improvements to any of the products described in this document without prior notice. Mio does not warrant that this document is error-free. The screenshots and other presentations shown in this manual may differ from the actual screens and presentations generated by the actual product. All such differences are minor and the actual product will deliver the described functionality as presented in this User Manual in all material respects.

## Compliance

 **WARNING** This product, its packaging and its components contain chemicals known to the State of California to cause cancer, birth defects or reproductive harm. This Notice is being provided in accordance with California's Proposition 65.

 For regulatory identification purposes:  
▪ Moov V500 Series is assigned a model number of N248.  
▪ Moov V700 Series is assigned a model number of N236.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

**Marking labels located on the exterior of your Mio indicate the regulations that your model complies with. Please check the marking labels on your Mio and refer to the corresponding statements in this chapter. Some notices apply to specific models only.**

Products with the CE marking comply with Radio & Telecommunication Terminal Equipment Directive (R&TTE) (1999/5/EC), the Electromagnetic Compatibility Directive (2004/108/EC) and the Low Voltage Directive (2006/95/EC) - issued by the Commission of the European Community. Compliance with these directives implies conformity to the following European Standards:

**EN 301 489-1:** Electronic compatibility and Radio spectrum Matters (ERM), Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements.

**EN 301 489-9: (Bluetooth and FM Transmitter):** Electromagnetic compatibility and Radio spectrum Matters (ERM), ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 9: Specific conditions for wireless microphones, similar Radio Frequency (RF) audio link equipment, cordless audio and in-ear monitoring devices.

**EN 301 489-17:** Electronic compatibility and Radio spectrum Matters (ERM), Electromagnetic Compatibility (EMC) standard for radio equipment and services; Part 17: Specific conditions for 2.4 GHz wideband transmission systems and 5 GHz high performance RLAN equipment.

**EN 300 328 (Bluetooth):** Electromagnetic compatibility and Radio spectrum Matters (ERM); Wideband Transmission systems; Data transmission equipment operating in the 2.4 GHz ISM band and using spread spectrum modulation techniques; Harmonized EN covering essential requirements under article 3.2 of the R&TTE Directive

**EN 301 357-2 (FM Transmitter):** Electromagnetic compatibility and Radio spectrum Matters (ERM); Cordless audio devices in the range 25 MHz to 2000 MHz; Part 2: Harmonized EN covering essential requirements of article 3.2 of the R&TTE Directive.

L'utilisation de cet appareil n'est pas autorisée en France.

La Fonction de transmission FM n'étant pas autorisée en France, elle doit rester désactivée.

**EN55013:** Sound and television broadcast receivers and associated equipment. Radio disturbance characteristics. Limits and methods of measurement.

**EN55020:** Sound and television broadcast receivers and associated equipment. Immunity characteristics. Limits and methods of measurement.

**EN 55022:** Radio disturbance characteristics

**EN 55024:** Immunity characteristics

**EN 50332:** Prolonged listening of music in maximum volume can damage the ears.

**EN 61000-3-2:** Limits for harmonic current emissions

**EN 61000-3-3:** Limitation of voltage fluctuation and flicker in low-voltage supply system

**IEC 60950-1:2001: Product Safety**

The manufacturer cannot be held responsible for modifications made by the User and the consequences thereof, which may alter the conformity of the product with the CE Marking.

**Declaration of conformity**

Hereby, Mio Technology declares that this N236/N248 is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

The FM transmitter function is not allowed to use in Cyprus, France and Greece. Please turn off the function in those areas. (For models with FM transmitter capabilities only)

This equipment may be operated in:
